

Capital Improvement Funding Partnership

Funding Award Presentation

Friday, December 1, 2016
at The Columbus Foundation
1234 East Broad Street
Columbus, OH 43205

In 2014, the Osteopathic Heritage Foundation and The Columbus Foundation joined resources and program interests to launch the Capital Improvement Funding Partnership. Recognizing the value of collaboration and the need for capital investments among nonprofits, the foundations committed to a three-year funding partnership to support capital campaigns and projects designed to better serve vulnerable populations in Franklin County. The multi-year initiative would make up to \$6 million available to area nonprofits.

In the first two years of the partnership, the foundations approved more than \$3.7 million in support to thirty-six (36) central Ohio nonprofit organizations working to address significant community issues including behavioral health, early childhood education, hunger and homelessness.

Demonstrating the value of philanthropic collaboration for achieving greater community impact, the first two years of the partnership resulted in:

- Expanded access to vital human services, ranging from oral health provision to early childhood education opportunities.
- Introduction of new services, including a community-based demonstration kitchen, summer programs for children, a universally accessible playground and an integrated health clinic.
- Over \$500,000 in allocations to organizations serving the Franklinton area, a socio-economically vulnerable neighborhood in Columbus.
- A total of \$455,000 combined support directed to organizations serving Franklin County's homeless population through emergency and long-term housing solutions.

In 2016, combined capital investments made by the foundations reached over \$2.5 million, supporting nineteen (19) organizations providing exceptional programs and services with an emphasis on those serving vulnerable populations.

The foundations are proud to recognize and celebrate the organizations receiving capital support through the funding partnership. We thank you for attending today and for sharing our collective commitment and passion for improving the quality of life for everyone in our community.
